Finally, a Dignified Adult Underwear to Help Women and Men Live Their Fullest Life

Alyne® underwear provides great protection without the bulk of most protective underwear. In fact, its 50% thinner! Alyne disposable adult underwear absorb and distribute moisture evenly with three diamond-quilted layers. It is a breakthrough technology. It has 4 micro-thin layers that together form the Alyne Diamond Quilt that is comfortable, but protects very well against leaks.

Alyne® lets you enjoy life with dignity everywhere you go. The Alyne story is now your story. Get back to living your fullest life knowing that our dignified adult briefs are made to fit close but not tight. Our disposable adult underwear moves with you and stays in place.

FOR 45 YEARS,

Manufacturers made small improvements in absorbency, colors and packaging. They were limited by relying on bulky wood-pulp technology. They missed what consumers were looking for most: a more dignified way to wear protective underwear. That's why Alyne invented and patented a breakthrough absorbent technology that doesn't use wood pulp.

The Alyne Diamond-Quilt™ Design is the difference

Alyne® contains four super-thin, super-absorbent layers, which makes Alyne up to 50% thinner while still providing full protection against leaks. Alyne also continuously absorbs and locks away odor.

A MORE DIGNIFIED FIT

Alyne has 108 comfort-fit threads, more than the leading brand. Alyne fits close but is never tight, and the underwear moves with you to stay comfortably in place.

ALYNE IS THE SUSTAINABILITY CHAMPION

Alyne meets the EPA's mandate of reduce, reuse and recycle. The Alyne package size is up to 25% smaller versus other protective underwear brands, and Alyne doesn't use bulky wood pulp. Fewer of our planet's trees are harvested and less pollution is generated moving Alyne from the factory to the store.

THE ALYNE STORY IS NOW YOUR STORY

Across the U.S. women and men are finding a more dignified way to wear protective underwear.

Alyne began its mission to make a better incontinence product by listening to women and men from all walks of life. They were tired of incontinence products that claim to be thin but were not absorbent.
