## Description

---

Seni is one of the leading manufacturers of disposable incontinence products in Europe and their Seni Active line represents one of the best pull-ups we have sampled to date. An extremely soft outer shell combined with a generous amount of high quality elastic threads create a protective underwear that is both comfortable and secure in fit.

- Double absorbent core provides high absorbency and the feeling of dryness.
- Extra Dry System (EDS) allows wetness to be distributed and absorbed into the core faster. This improves the feeling of dryness and increases the comfort of use.
- Soft cloth-like outer layer helps the skin to breathe easily.
- Superabsorbent bonds the moisture into the core and minimizes odor.
- To be put on like normal underwear for discretion and exceptional comfort of use.

- Tear-away side seams are a comfortable way to take off a used product.
- Not made with natural rubber latex.
- Can be used both in urinary and bowel incontinence.
- Soft and delicate to skin.

Case prices include **free ground shipping**.  
 All orders ship in **100% plain packaging**
